Location: Alexandria, Egypt

Objective

Dynamic and detail-oriented accountant with a strong foundation in financial analysis, auditing, and systems development. Seeking a challenging role to apply my CMA certification and drive organizational growth through streamlined financial processes and strategic insights.

Education

Bachelor of Commerce, Alexandria University
Graduated: 2021 | Grade: Very Good with Honors

Professional Experience

General Accountant & System Developer (Remote)
Barari Al Jazirah Company, Iraq
Aug 2024 – Present

- Led bookkeeping and reconciliations, managing over 50 accounts with high accuracy and efficiency.
- Designed and customized accounting systems using QuickBooks, automating manual processes and reducing entry errors by 25%.
- Conducted cost analysis and provided management with data-driven pricing recommendations, improving profit margins.
- Collaborated with cross-functional teams to develop comprehensive financial reports that guided key operational decisions.

Business Developer
Agrid Company
Feb 2024 – Aug 2024

- Built and maintained strong relationships with key clients and suppliers, resulting in a 15% increase in repeat business.
- Developed and executed growth strategies to enhance revenue and expand the client portfolio.
- Conducted in-depth market research and competitor analysis, identifying new market opportunities that contributed to revenue growth.

General Accountant
Al-Ittihad Poultry Investment
Aug 2023 – Feb 2024

- Oversaw accounts payable and receivable processes, achieving a 10% reduction in outstanding receivables through streamlined billing procedures.
- Performed variance analysis on budget versus actual costs, leading to cost-saving measures that reduced expenses by 8%.
- Supported month-end and year-end close processes, ensuring timely financial reporting for management's decision-making.
- Analyzed sales trends and produced monthly reports that informed future planning and inventory management strategies.

General Accountant
Al-Nahda Group
Feb 2022 – Aug 2023

- Managed daily general ledger entries, reconciliations, and month-end closings, improving reporting accuracy by 15%.
- Prepared financial statements, including balance sheets and cash flow reports, providing key insights to senior management.
- Ensured regulatory compliance with local and international accounting standards, reducing audit findings by 20%.
- Conducted internal audits and established a monthly budget reporting system, enhancing cost tracking and forecasting.
